In this regard, the decision of the CEO, TLDA will be final and binding to all the bidders.

25. For the items / services, the bidders must ensure the required quality, quantity, materials, dimensions & other parameters (HSN Code etc.) and quote accordingly. In case items / services provided are not the same as quoted / ordered,

the claim for payment shall not be accepted. No payment or claims for such items / services shall be released. In this regard, the decision of CEO, TLDA will be final and binding to the suppliers.

26. Tripura Livestock Development Agency, Astabal, Agartala at its discretion may change the quantity / quality / parameters / upgrade the criteria / drop any item(s) or part thereof at any stage. In case of any dispute, the decision of Tripura Livestock Development Agency, Astabal, Agartala shall be final and binding on the bidders / tenderers.

27. Tripura Livestock Development Agency, Astabal, Agartala reserves the right to accept or reject any or all the bids in part or in full without assigning any reason. The decision of the competent authority of TLDA will be final and binding to the bidder(s).

28. Professional(s) to be deployed by the successful bidder(s) for the supply of the item / installation / execution of the work to provide the item(s) / service(s) as per order must be well qualified.

29. If any fraudulent document submitted by the vendor/firm is detected at any stage during the procurement or after the procurement, the institute will take appropriate legal action against the vendor/firm including the recovery of two times of the purchase order/award of work and equipment/items will not be returned.

30. All the tenders received will first be scrutinized to see whether they meet the basic requirements, as incorporated in the tender enquiry document. The tenders, who do not meet the basic requirements, are to be treated as non-responsive and ignored. The following are some of the important points, of which a tender may be declared as unresponsive and to be ignored, during the initial scrutiny:

- (a) The bidder is not eligible.
- (b) The Bid validity is shorter than the required period.
- (c) The Bidder has quoted for goods manufactured by a different firm without the required authority letter from the proposed manufacturer.
- (d) Bidder has not agreed to give the required performance security or has not furnished the bid security.
- (e) The goods quoted are sub-standard, not meeting the required specification, etc.
- (f) Against the schedule of Requirement, the bidder has not quoted for the entire requirement as specified in the schedule.
- (g) The bidder has not agreed to same essential condition(s) incorporated in the tender enquiry.

31. TLDA, Astabal, Agartala will not be responsible or liable to pay if the bidder fails to mention packing, forwarding, freight, insurance charges, taxes etc. in its price bid.

32. If the successful bidder(s) commits a breach of any of the above or Order's terms and conditions or is not able to deliver the item/ provide the services/ complete the work on time, the contract will be cancelled and security deposit shall be forfeited and a damage liability at the discretion of TLDA will be imposed on the bidder(s).

33. Only 'Class- I local supplier' and 'Class- II local supplier' as defined in the Public Procurement (Preference to Make in India), order 2017 shall be eligible to bid in the tender. For more details please refer: Order No. P-45021/2/2017-PP (BE-II) dated 16th September 2020 and P-45021/2/2017-BE-II- Part (1) (E-51310) dated 4th March 2021 issued by DPIIT, Ministry of Commerce and Industry, GoI.

34. Self- certificate has to be provided in this regard that the item offered meets the local content requirement for 'Class-I local supplier' & 'Class-II local supplier'.

35. The Institute reserves the right to rectify any discrepancy in this advertisement if found later on. In case of any inadvertent mistake in the process which may be detected at any stage even after the issue of the purchase order, the Agency reserves the right to modify/withdraw/cancel any communication made to the bidder.

36. Non-conformities between Figures and words:

Sometimes, non-conformities/errors are also observed in responsive tenders between the quoted prices in figures and in words. This situation normally does not arise in case of e- procurement. This should be taken care of in the manner indicated below:

- (i) If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price will prevail and the total price will be corrected.
- (ii) If there is an error in a total corresponding to the addition or subtraction of sub-totals, the sub-totals shall prevail and the total shall be corrected;
- (iii) If there is a discrepancy between words and figures, the amount in words will prevail for calculation of price.

37. Supplier Integrity: The Supplier is responsible for and obliged to conduct all contracted activities in accordance with the Contract using state of the art methods and economic principles and exercising all means available to achieve the performance specified in the contract.

38. Installation & Commissioning: The supplier is required to done the installation and demonstration of the equipment within one month of the arrival of materials at the installation site, otherwise the penalty clause will be the same as per the supply of materials.

TLDA, Agartala will provide the suitable room for the LN2 plant. Any CIVIL work such as concrete structure for machine installation is in the scope of Bidder. Installation, Commissioning and demonstration are in the Bidder scope.

In case of any mishappening/damage to equipment and supplier during the carriage of supplies from the origin of equipment to the installation site, the supplier has to replace it with new equipment/supplies immediately at his own risk. Supplier will settle his claim with the insurance company as per his convenience. TLDA will not be liable to any type of losses in any form.

39. Insurance: For delivery of goods at purchaser's premises, the insurance shall be obtained by the supplier in an amount equal to 110% of the value of the goods from "warehouse to warehouse" (final destinations) on "All Risks" basis including War Risks and Strikes. The insurance shall be valid for a period of not less than 3 months after installation and commissioning.

40. Governing language: The contract shall be written in English language. English language version of the Contract shall govern its interpretation. All correspondence and other documents pertaining to the Contract, which are exchanged by the parties, shall be written in the same language.

41. Training of personnel: The supplier shall be required to undertake to provide the technical training to the personnel involved in the use of the equipment at the Institute premises, immediately after completing the installation of the equipments. Classroom and operational training session for TLDA, Agartala Staff / Students from the expert engineer. The initial training for a minimum period of five days at the supplier's cost. Training should include the operation, hardware, software, application & troubleshooting of the LN2 Plant. Regular follow up training every six months during the period of warranty on mutually convenient dates.

42. The supplier shall be required to undertaken minimum 10 days trail run after installation.

Technical specification of Liquid Nitrogen Plant is given below:-

A.

Sl. No.	Particulars	Item description
1.	Capacity	Minimum 20 liters per hour (480 liters/day) at 1 bar (g).
2.	Purity	Produced LN2 should be above 99% pure.
3.	Storage Vessel / Tank	The storage vessel / Tank should be made of high-quality stainless steel, very rigid, steady and free corrosion for a long life time. System to have minimum 1000 liters of capacity. Storage tank must be double walled, vacuum insulated & manufactured of stainless steel. The liquid pipelines and the tank wall should be cryogenically insulated to minimize liquid nitrogen loss. The Storage Vessel should also be fitted with all standard safety and required accessories and supply from OEM.
4.	Storage capacity	Minimum 1000 liters with proper level indicator, pressure sensors, digital display and proper LN2 discharge arrangements.
5.	Start-up time	<=30 minutes
6.	Restart after power failure	Auto-restart after any period of power resumption with start-up time to full production. The system should have the option to disable Auto-Restart features.
7.	Controller	Centralized Controller with instrumentation to control Cryocooler Compressor, Filters, Chiller, Air Compressor, Gas separator unit and the sub-system.
8.	Plant main Components (Cryogenic Liquefier)	Nitrogen Gas Generator 1 x Nitrogen storage vessel Cryogenic Cold-head and helium compressor assembly with pre-charged helium 1 x 1000 litre vertical cryogenic tank (vacuum insulated) Colour graphic touch screen controller PLC based Electrical control system 1 x Liquid Nitrogen outlet Inlet port for Compressed Air and Chilled Water Line
9.	Cryo cooler Compressor:	Should be Integral part of cryo cooler. If the cryo cooler compressor is not an integral part of the cryo cooler then the connection between the compressor and cold head must be through stainless steel flexible hose pipe
10.	Water Chiller	Chiller must be from Original Equipment Manufacturer (OEM), if not then it must be from a reputed brand.
11.	Helium cylinder, regulator etc.	i) Helium cylinder along with pressure regulator must be provided. ii) Helium should be pre-charged in the system. iii) Helium required for the 2 years of operation should be provided on timely basis.
12.	Defrosting / Purging	No defrosting / Purging should be necessary.
13.	Air Compressor	The Air Compressor must be from the OEM, if not then it must be from a reputed international brand.
14.	Nitrogen Gas separation	There should be warm-gas separation through an efficient system which should meet the requirement of a nitrogen liquefies of minimum 20 liters/hour. The separated nitrogen gas should be at least 99% pure.
15.	Nitrogen liquefaction	By modern and efficient technology.
16.	System control and operation	Should be fully automatic, single-switch, PLC Controlled Operation. This should ensure that liquefier stops when LN2 storage tank is full and automatically re-starts when level comes down to 70-80% of its capacity. Provision for remote monitoring feature along with digital display for control.

17.	Power Consumption & Efficiency of plant	Must be minimum power consumption including the accessories. The Bidder should Indicate Power Consumption of all accessories with break up. Power Consumption per liter of Liquid nitrogen should be mentioned in the offer. The Bidder should provide the efficiency of the major sub system, efficiency of the whole plant.
18.	Maintenance Interval	Not less than minimum 7000 hours of operation.
19.	Space Required for the complete plant	The plant should be accommodated in a room of 30 x 15 x 10 feet size.
20.	Plant Lay-out and schematic Diagram	(i) The layout of the plant, required power supply and other statutory requirements should be mentioned in the Technical Bid. (ii) The Bidder should share the schematic diagram along with the technical bid.
21.	Normal operating Environment	System should be able to withstand Indian environment and should be able to perform well up to the temperature of 45 deg. C.
22.	Power Supply	TLDA, Agartala will provide three phase and Single-phase raw power supply up to the installation room. The whole system should work on Indian power ratings. The supplier should provide the required high-voltage cable from the nearest power source to the instrument.
23.	Noise level	Less or Equal to 85 dBA at a distance of 1 m.
24.	Assembly & testing	Should be factory assembled and rigorously tested. All accessories should be OEM approved.
25.	Accessories	(i) Suitable starter with proper cut-off for the compressor and plants should be supplied by the bidder. (ii) Voltage stabilizer (125 kVA) capacity for the complete system: 1 No. (iii) Complete tools set for repair, maintenance, servicing, and Annual Inspection and Cleaning kit. (iv) Liquid Nitrogen cryocan (~10 L capacity) for transporting liquid nitrogen from the plant: minimum 2 Nos. (v) Liquid Nitrogen cryocan (~20 L capacity) for transporting liquid nitrogen from the plant: minimum 2 Nos (vi) Liquid Nitrogen cryocan (~50 L capacity) for transporting liquid nitrogen from the plant: minimum 2 Nos (vii) Safety equipments (including Gloves and Goggles) for handling liquid nitrogen: 2 sets. (viii) Complete user manuals, service manuals, and safety manuals in English (hard copy and soft copy): 2 sets. (ix) Vendor(s) must provide all the consumables regular maintenance, servicing and repairs for three years of operation from the date of successful installation of the plant. (x) Offer must also include any other equipment required for the proper functioning of the plant.
26.	Supply and availability of spares	(i) The Bidder must have capability for uninterrupted supply of spares, accessories for a period of 10 years (120 months) from the date of acceptance to avoid any operational problem due to obsolesce or / any other reasons. (ii) The Bidder should ensure the availability of spare parts for at least 10 years, a letter should be submitted from OEM.
27.	Delivery Period	180 days from the date of PO placement.
28.	Installation and Commissioning	TLDA, Agartala will provide the suitable room for the LN2 plant. Any CIVIL work such as concrete structure for machine installation is in the scope of Bidder. Installation, Commissioning and demonstration is in the Bidder scope.

29.	Installation in India / customer base in India	<p>i. The bidder must be an authorized partner of their Original Equipment Manufacturer (OEM) or shall be authorized on behalf of their OEM. Letter of Authorization from OEM on the same and specific to this tender should be enclosed. Reference details of the Liquid Nitrogen Plants of similar or higher capacity installed and commissioned by the bidder must be attached to prove the credibility and reliability of the bidder and to ascertain the experience of installation, commissioning as well as after sales service support.</p> <p>ii. Installation, complete interfacing of the system with its subsystems, and commissioning are to be carried out by the bidder's factory- trained engineers, followed by a demonstration of the systems performance to the users complete satisfaction.</p> <p>iii. An estimate time schedule for installation, commissioning and training must be provided.</p> <p>iv. The bidder must have successfully installed and commissioned at least 10 Liquid Nitrogen Plants of Similar (20 Liters per hour) or higher capacity in premier institutions and / or reputed organizations in India. The Purchase Orders claimed towards this experience must have been issued in the name of the bidder and must be attached as documentary evidence. Proof in this regard with contact details of the users should be provided. All certificates should be attached in the technical bid to evaluate the credibility of the bidder. The installed plant should be in running condition. Bidder of Liquid Nitrogen Plant must have direct trained man power in India for maintaining this critical and high value assets factory trained service engineer must be available to support.</p> <p>v. Certifications required from manufacturer: ISO, & CE certificate of the instrument.</p> <p>vi. All the necessary terms and accessories for making the unit fully functional must be supplied.</p> <p>vii. A copy of the PO and end user details should be provided for verification of the performance of the supplied plant/system. The purchase and technical committee may contact the existing users to seek feedback on performance & services.</p> <p>viii. Bidder must have obtained appreciation/satisfactory report duly signed by the user with seal along with the technical bid, otherwise bid is liable to be rejected. Contact details of all such customers to be provided as reference. Commissioning certificates for Liquid Nitrogen Plants must be attached.</p>
30.	Warranty	<p>The system should be covered for comprehensive warranty for minimum 3 years from the manufacture of all parts including spares from the date of completion of plant commissioning. The Comprehensive Warranty should cover:</p> <p>i) All parts including accessories, spares, Travel and labour in site.</p> <p>ii) Free maintenance and service on site or at factory with no cost.</p> <p>iii) All other consumable required during the operation.</p> <p>iv) Regular up-gradation of software,</p> <p>v) Warranty Certificate must be attached.</p>
31.	Evaluation Parameters	Satisfactory performance of instrument and after sales service from existing users may be considered by the committee in evaluating the technical bid.
32.	On-site maintenance, After sales service facility and down-time call attendance	<p>Supplier should clearly mention about their service set up in India for prompt service support. Direct service support from the company in India is must. The bidder must have sufficient qualified and factory trained service engineer in NE states preferably in Tripura to be able to attend to service at TLDA, Agartala within 24-72 hours on submitting a complaint to ensure smooth operation of the system in our region, we need one head count in the State having training from the company for at last three years from the date of installation. Having one service Engineer in the State for 3 years is mandatory to provide immediate on-site service.</p> <p>During the warranty period, only factory trained and certified engineers are acceptable to attend the service.</p> <p>If the supplier fails to provide the service during the warranty period then TLDA, Agartala may revoke the Performance Security and / extending the warranty period equivalent to the number of non-functional days.</p>
33.	Pre-dispatch	The supplier should arrange the pre-dispatch inspection prior to packing & dispatching of the item for local supplies. Firm should share the entire detail of the LN2 system with images and schematic diagram before packing.
